CHARLES H. CHISOLM, EXECUTIVE DIRECTOR

## MEMORANDUM

---

**TO:** Kuhlman Electric Site File  
Crystal Springs, MS  
**FROM:** Tony Russell *TR*  
**DATE:** July 28, 2005  
**SUBJECT:** Helen Lewis Bartley Phone Conversation

---

Helen Lewis Bartley – (313-386-2602)

She called on July 11, 2005, wanting her soil tested as she owns property at 213 McPherson Street. According to the soil samples collected along the drainage ditch, her property is not impacted at this time. Ms. Bartley also thought her property boundary extended beyond the ditch but it does not according to the land surveys conducted by BorgWarner. I relayed this information to her on July 13 and she seemed content with my response.

During the cleanup of the ditch adjacent to her property, confirmation samples may show some contamination on her property because of the closer sampling spacing required for confirmation sampling. Any contamination detected above 1 part per million (ppm) will be excavated and disposed according to the approved work plan.
