Re: Letter dated January 31, 2006
Puckett St. Properties
Crystal Springs, Mississippi

Dear Ms. Hamel:

The Mississippi Department of Environmental Quality (MDEQ) has received your letter stating that clean-up efforts will be directed toward the Puckett Street Properties in the next few weeks. In order to expedite remediation of these areas, the MDEQ will not require a separate remediation work plan for these areas. Borg Warner may accomplish clean-up of the Puckett Street Properties under the *Drainage Channel Remediation Work Plan*, as approved by the MDEQ on July 24, 2003, with the following conditions:

1. The most recent version of the Site Safety Plan (thru Amendment #002, dated February 20, 2004) shall be used for all work.
2. If significant variations to the approved work plan become necessary, MDEQ approval shall be requested as soon as time and conditions permit.
3. The MDEQ will be informed at least two (2) weeks prior to conducting any field work associated with clean-up of the Puckett Street Properties.
4. The MDEQ will be provided the appropriate number and type of containers for any split samples requested.

If you should have any questions or comments, you may contact Brian Young at 601.961.6088.

Sincerely,

Brian Young
Project Manager

Tony Russell, Chief

Re: Site Assessment Report
Puckett Street Properties
Crystal Springs, Mississippi

FILE COPY

Dear Mr. Russell,

Enclosed, for your information and files, is a copy of the Site Assessment Report for the investigation at the 104, 106, 110, Parcel 17, Parcel 21, and a road side ditch collectively "Puckett Street Properties" in connection with the Kuhlman Electric Corporation (KEC) facility in Crystal Springs, Mississippi.

Please note that this assessment report concludes the investigations conducted to date in the vicinity of Puckett Street.

In the event there are any questions or additional information is needed, please feel free to contact me directly at 248-754-0839.

Very truly yours,

Anastasia Hamel
Director, Environmental Programs
BorgWarner Inc.

Re: Preliminary Investigation
Puckett Street Properties
Crystal Springs, Mississippi

Dear Mr. Russell,

Enclosed, for your information and files, is a copy of the preliminary investigation results for the 104, 106 and 110 Puckett Street Properties in connection with the Kuhlman Electric Corporation (KEC) facility in Crystal Springs, Mississippi.

Please note that this report summarizes the investigations conducted to date and incorporates a Sampling and Analysis Work Plan to complete the assessment of additional properties within the vicinity of 106 Puckett Street.

In the event there are any questions or additional information is needed, please feel free to contact me directly at 248-754-0839.

Very truly yours,

Anastasia Hamel
Director, Environmental Programs

Re: Puckett Street Soil Sampling

Dear Mr. Russell:

This is to update the Mississippi Department of Environmental Quality (MDEQ) on the soil-sampling events in Crystal Springs, Mississippi.

As you are aware, BorgWarner conducted two separate soil-sampling events in conjunction with Plaintiffs' consultants and after obtaining access permission from Plaintiffs. The first sampling event took place on January 17, 2005 and centered on the 106 Puckett Street property. The second sampling event took place on February 25, 2005 and incorporated the 104, 106 and 108 Puckett Street properties.

BorgWarner is in the process of evaluating the analytical results that were obtained from both sampling events and plans to compile those results for submittal to MDEQ. BorgWarner also plans to submit with the results a Site Characterization Work Plan describing the sampling activities for the 104, 106, and 108 Puckett Street properties as well as the continuation of the delineation activities.

BorgWarner is currently attempting to identify the property owners to the north and west of 106 and 108 Puckett Street properties to request permission to sample and will notify MDEQ of the sampling date.

In the event there are any questions or additional information is needed, please feel free to contact me directly at 248-754-0839.

Very truly yours,

Anastasia Hamel
Director, Environmental Programs
BorgWarner Inc.

Subject: Sampling At Puckett Street

Dear Tony and Brian,

This is to let you know that BorgWarner has requested access from Plaintiffs to conduct soil sampling at 104,106 and 108 Puckett Street in Crystal Springs.

Plaintiffs indicated that their consultants are available tomorrow Friday, February 25th. We are still waiting for confirmation and hope to have it by the end of today.

Please let us know if you wish to be present in the field to observe the sampling process and/or split samples.

Thanks.

Anastasia
